

Model: RMC1

## Remote control

---

The RMC1 remote control is compatible with all Beetrronics monitors and touchscreens. The remote requires no configuring when used with Beetrronics screens. It allows you to quickly navigate the various menus (languages, picture settings etc...). Dedicated buttons allow you to directly control volume, brightness and navigate the channels. It's the easiest way to configure any Beetrronics monitor up to 6 meters away. The RMC1 takes two AAA batteries.

- ✓ Quick & Easy to use
- ✓ Compatible with all Beetrronics monitors
- ✓ Control your screen from up to 6m away
- ✓ Uses two AAA batteries (not included)
